

WHAT YOU CAN EXPECT

Scheduled & Tracked

Records are picked up and destroyed on your schedule, with documented confirmation for a clear record of what was destroyed and when.

Built Around Your Business

Service is tailored to your volume, timing, and requirements. You get consistent, professional handling—not a one-size-fits-all approach.

Clear, Fair Pricing

Rates are straightforward and upfront, with no hidden fees. Special pricing is available for non-profit organizations.

SECURE DOCUMENT SHREDDING

Safe Shredding That Fits Your Business

Some businesses shred on a regular schedule. Others do it during clean-ups or record purges. We support both so destruction happens when it makes sense for you.

THE VALUE

Protect Sensitive Information

Once records are shredded, they're gone. No dumpster diving, no reuse, no risk of confidential information ending up where it shouldn't.

Consistent Privacy Requirements

Our shredding is handled through a controlled process with documented destruction, so you're not relying on office shredders or hoping disposal was done properly.

Clear Out Paper Fast

Bulk shredding gets rid of years of paper at once. No jammed machines, no noisy offices, and no pulling employees away from real work.

What Should Be Shredded?

- Employee and payroll records
- Client files and customer information
- Financial documents and tax records
- Contracts, legal files, and expired agreements
- Any paper containing personal or confidential information

“Consentia made document destruction effortless, protecting sensitive information every step of the way. - Danielle T.
