

CONSENTIA
PACIFIC
RAW DATA. REFINED RESULTS.

Modernize Your Client Records with Confidence

How can we help the BCPA members?

Spend less time managing paper records and more time focused on your client. Consentia securely digitizes client files, handwritten notes, assessments, and other practice documents, helping you improve accessibility, reduce physical storage, and integrate information into digital record systems.

Practice Management Integration

Support seamless transitions by integrating digitized files into platforms such as Jane, AthenaOne and more.

Document Imaging & Scanning

Convert and organize client files, handwritten notes, and other records into digital formats with OCR technology.

Physical Storage & Secure Shredding

Secure physical record storage and confidential shredding aligned with retention schedules.

Transcription Services

Turn recorded sessions, interviews, and other audio files into accurate, searchable written records.

Why Go Digital?

Make Your Files More Accessible

Access records quickly and securely when you need them. With searchable digital files, finding information becomes easy.

Unlock the Potential of Your Data

Create opportunities to streamline workflows, improve information management, and add records to your systems.

Protect Your Records

Safeguard sensitive client information with secure digital records and controlled access to confidential files.

Save On Costs

Reduce reliance on physical storage and reclaim valuable office space while managing a growing volume of digital files.

By the Numbers:

Over our 50-year history serving over 500 clients, our numbers speak for themselves:

1 Billion + Images Scanned

100,000 + Projects Completed

We provide preferred pricing to all BCPA members for all our services.
